Everything Epee reviews

The clinic was wonderful. Information was presented clearly and thoroughly, feedback was thoughtful, and the resources provided are extremely useful references. The resources will be valuable far into the future.

I think this was a great use of technology. Especially great for sharing information without having to travel which isn't always possible. I think that Rob presented the material clearly and did a great job of showing actions from different angles which was helpful for video.

The clinic covered a lot of information and I appreciated all the time and effort the Coaches put into it for such a comprehensive topic. There should be more coaching clinics in the future to ensure all US coaches have an opportunity for continual learning as our sport changes. If we as coaches improve, so will our students.

Maître Handelman's class is one of the best I've had the pleasure to take in over thirty years of fencing. I can only imagine how much more valuable this would've been had it been in person, but with the pandemic and distance this worked better than well thanks to him (I've taken classes online, taught college online for a decade, and know how challenging it can be). As a trained teacher myself (PhD, 02), Maître Handelman is a teacher's teacher; one of the finest Maîtres with whom I've had the honor to study. I don't want to lose access to his STCs or videos of the class. It's just too valuable. This course was so good that not only will I take anything else the Maître offers, but also have already recommended others do so too. I learned so much and feel better equipped to keep learning.
